Company History

2008

Specialized Automotive Centre (SAC) began as a small garage with a big vision: to redefine auto care in Bangladesh. Founded by a team of passionate mechanics, we started with just two service bays but an uncompromising commitment to quality repairs, honest service, and customer trust. Those early years shaped our core values—every oil change, every brake job, every diagnostic was done with meticulous care, earning us loyal customers who believed in our mission.

Present

Today, SAC has grown into a full-service automotive hub, equipped with cutting-edge technology and a team of certified technicians. From engine overhauls to advanced electrical diagnostics, we now serve thousands of vehicles annually while staying true to that original promise: transparency, expertise, and a relentless focus on your satisfaction. Our journey reflects our dedication—not just to fixing cars, but to building lasting relationships on the road ahead.
